Project title

Project Summary

BDB Special Projects was contracted by Balfour Beatty Mott MacDonald to deliver complex civil engineering works within the central reserve of the M56 Motorway.

The project involved constructing reinforced concrete bases to support the long-term propping of the Expressway Bridge between junctions 11 and 12. Additional scope included installing new drainage infrastructure, including pipes, manholes, and gullies.

SCOPE OF WORK

Key Achievements: BDB Special Projects successfully overcame a number of challenges to deliver the Euro Garages Whitewalls Drive project on time and within budget. Some of the key achievements of the project include: Developing a comprehensive project plan that minimized disruption to the local community. Successfully managing traffic congestion and utility conflicts. Implementing innovative solutions to reduce costs and improve efficiency. Achieving high levels of quality and safety. The Euro Garages Whitewalls Drive project has had a number of positive impacts on the local community. The new infrastructure has improved traffic flow, safety, and accessibility. The project has also created jobs and boosted the local economy. Testimonials BDB Special Projects was a pleasure to work with on the Euro Garages Whitewalls Drive project. They were professional, efficient, and delivered a high-quality product on time and within budget.

” – Euro Garages “The Euro Garages Whitewalls Drive project has had a positive impact on our community. The new infrastructure has improved traffic flow and safety, and it has also created jobs.”

– Local resident. Call to Action If you are looking for a civil engineering firm that can deliver complex projects on time and within budget, contact BDB Special Projects today.
